

Getting started ...

First provide as much specific information and details as you possibly can find, using the checklist below. The more info the better, for efficiency in the research, saving my time and your money.

If you can fill all the blanks, well then you really don't need my assistance .
Anyway, send the information by email
mail@peterhaagen.dk

Now I shall look into the matter, and make an estimate of results to be expected.
Within a couple of weeks I will contact you, and present the estimate.

Up till now all is for free.

If you agree to my response, initial payment, minimum 5 hours, must be paid via PayPal, using the "Pay Now" button on the website
http://genealogy.peterhaagen.dk/

Now the research starts, and usually within one to two months, you will receive your ancestor-report by email (pdf).
From here you may decide whether you want me to make further research for ancestors, details or relatives in Denmark.

You will never be charged for research or expenses not agreed to beforehand.
So no unpleasant surprises in this respect.

Sincerely yours

Peter H. Andersen
Sundvej 71
